AR CONDICIONADO

CATÁLOGO

Life's Good.

Plasmaster[™]Ionizer⁺⁺

The powerful Plasmaster™ Ionizer++ removes unpleasant odors, along with Escherichia coli and Staphylococcus on surfaces, using over 8 million ions. Experience a safer, cleaner indoor environment.

- * Specifications may vary for each model.

How It Works

Reduction and Deodorization (Utilizes Over 8 Million Ions)

Plasmaster Ionizer+ reduces E.coli and Staphylococcus in the surface with over 8 million ions.

Release of Ions into Air

lons are released into the air.

Surrounding Harmful Substances

H- and O- bond to harmful particles.

OH Radical Production

OH radicals inactivate harmful substances.

Chemical Reaction

activate OH radicals bond with ances. H particles.

Disinfection

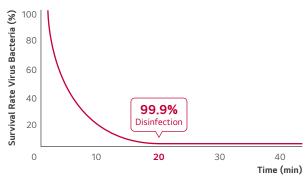

H₂O molecules are produced.

(H₂O

Test Result

Effective Reduction Performance

Remove Bacteria E.coli over 99.9% in 20 min

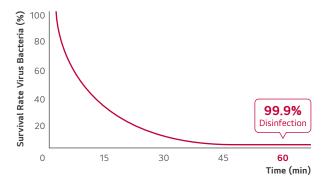

* Test Conditions :

Space: 30m³ Chamber (Measuring with the specimen in the center of test chamber)

Temperature & Humidity : Normal Bacteria : E Coli colon bacillus Verified by Intertek & TUV Rheinland

Staphylococcus Sterilization

Remove Staphylococcus aureus over 99.9% in 60 min

X Test Conditions :

Space : $30\,\mathrm{m}^3$ Chamber (Measuring with the specimen in the center of test chamber)

Temperature & Humidity : Normal Bacteria : Staphylococcus Aureus Verified by Intertek & TUV Rheinland

Benefit & Verification

The LGE's ionizer, known as "Plasmaster Ionizer Plus," has demonstrated the capability to remove more than 99.9% of bacteria, including Escherichia coli, Pseudomonas aeruginosa, and Staphylococcus aureus.

UV_{nano}^{m}

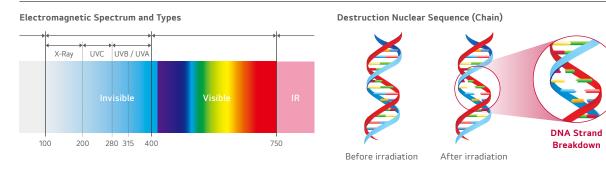

LG DUALCOOL, keeping the fan (inside the unit) 99.99% bacteria-free with ultraviolet light to ensure that the air passing through is clean too.

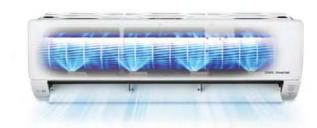

** UVnano is an integrated marketing name that applies LG Electronics' entire home appliances and it is a compound of the words UV (ultraviolet) and nanometer (unit of length).

What Is UVnanoTM and How It Works?

- Emit Ultraviolet rays of UVC wavelength directly damage the DNA of microorganisms (bacteria/mold/viruses) making it impossible for them to multiply.
- High absorption into DNA at 260 to 270 nm wavelengths

DNA Absorption Efficiency by Wavelength

UVC Applied Product

Benefit & Verification

Keep the fan 99.99% bacteria-clean for a cleaner breeze.

Removes up to **99.99%** of bacteria from the internal fan.

* Test Condition

- Test Model : S3NM12JL1GA(SJ), S3NM24K21GA(SK)
- Test Standard : LG test method with referenced to ISO 20743:2007
- Bacteria : Staphylococcus aureus, Staphylococcus epidermidis, Klebsiella pneumoniae

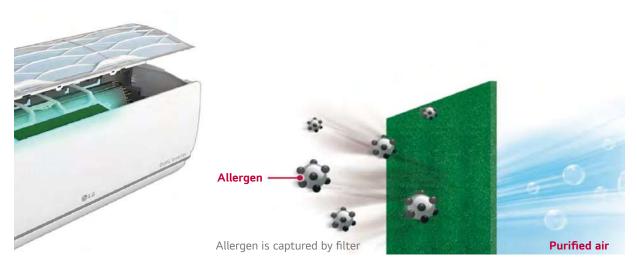

Allergy Filter

While airflow from an air conditioner may trigger symptoms associated with allergies or asthma, LG units feature an interior filter designed to absorb harmful particles such as dust mites, pollen, fungi, and mold that circulate in the air. This ensures a cleaner and more allergen-free environment.

* Specifications may vary for each model.

How It Works

Removes allergy-causing substances, such as dust mites that can be found in the air.

Certification

Certified by AllergyUK

* Test Condition Disclaimer

A filter is coated to absorb harmful substances that can cause allergies. The air conditioner strongly absorbs indoor air and removes allergy-causing substances, such as house dust mite, fungi, mold, floating in the air.

Allergy UK (a world-renowned organization) is a British medical charity dedicated to helping adults and children with their allergies. The charity was founded in 1991 as the British Allergy Foundation, and in 2002 the operational name of the charity became Allergy UK. Allergy UK endorses certain products that restrict or remove high levels of allergens and gives them a Seal of Approval.

Smart Diagnosis

Smart Diagnosis allows you to monitor the health of your air conditioner remotely.

- ※ Specifications may vary for each model.
- * When connected to Multi ODU, Smart Diagnosis function may not be supported.

What is Smart Diagnosis?

Smart Diagnosis allows users to conveniently check setup, installation, troubleshooting and other information directly from a smartphone.

- * Builds upon widespread smartphone use and offers greater USP diversification
- * Perfect for consumers who are unable to view information about their air conditioner via a display or remote control.

How It Works

Embedded Wi-Fi Model

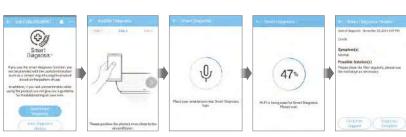

By using "ThinQ" App and clicking "Start Smart Diagnosis", monitor and check diagnosis results conveniently via Wi-Fi.

Non Embedded Wi-Fi Model

Benefit

Easily understandable error messages simplify the process of identifying solutions and make reaching out to the service center simple and convenient.

For Consumer

- Easily check the operational status of a product, even without a display or with limited information.
- Save energy by monitoring key operational information and power consumption.
- Utilize the Maintenance Guide to enhance device performance and increase the product's lifespan.

For Installer and SVC

- Gain a better understanding of the product by easily confirming operational status and information.
- Intuitively diagnose problems by comparing current and past usage data.
- Maintain installation capabilities and reduce errors by quickly confirming device operational status.

LG participates in the ECP programme for EUROVENT AC program.
